

Shanghai Kooben Machinery Co., Ltd

Are you looking for a reliable drilling tools supplier

KOOBEN COMPANY OFFICE BUILDING

Building No.1, No.666
Zhangheng Road, Pudong
district, Shanghai, China

Location

Invested Cooperative Factory

Building class-leading drilling tools.

Our factory uses modern high-tech production technology and equipments. It mainly produces low, medium, high pressure drilling tools, DTH drilling hammer, drill pipe, top hammer drilling tools, etc.

Advanced and strict quality management system.

Our R&D team releases 2-3 series of products every year, with strong product development capabilities. We intensively focus on R&D. Continuously put production experiences and technologies over years into real application. Successfully solved the difficulties of piston to break easily and bit is not wear-resistant.

Our story

THE LEGEND OF THE KOOBEN DRILL

Kooben CEO Mr. Yang, a former drilling rig maintenance engineer, had firsthand experience with the unstable quality of drill tools in the industry. Frustrated by the lack of reliable options for customers, he decided to take matters into his own hands. Drawing on his expertise and passion for innovation, Mr. Yang founded Kooben with a mission to provide the best quality drilling tools to customers. Through dedication and hard work, Kooben quickly became known for its stable drills that revolutionized the mining industry. Customers no longer had to worry about the quality of their tools, as Kooben's products set a new standard for durability and performance. Mr. Yang's vision and commitment to excellence propelled Kooben to success, earning the trust and loyalty of customers worldwide

Drill Bits

The items we are selling

Kooben provide normal button bit, retract button bit, reverse circulation drill bit, DTH drill bit, rocket bit, hole opener bit, etc.

Kooben can design and manufacture bits according to customer's requests (Provide OEM service)

Button Bit

DRILL BIT ALLOY PRODUCTION PROCESS

Drill bit button alloy production and installation are adopted advanced technology to ensure the wear resistance and strength.

Each drill bit will undergo extensive testing before being put on the shelves to ensure that the defective rate of each batch of products is less than 0.3%, and to ensure a more stable drilling depth of the drill bit.

DTH Hammer

HAMMER ADVANTAGES.

DTH hammer consists of 12 items, simple structure and less parts make easier & cheaper maintenance.

Lower air consumption and higher impact frequency. 15-30% higher drilling efficiency.

With hardening and reinforcement manufacturing process, makes longer service life and less problems. Thread connection for top sub and drive chuck, makes easier disassembly.

Drill rod adapter

FEATURES

Rod adapter is the portion of drill pipe, which includes pin adapter and box adapter, connected the two sides of the drilling pipe.

Adapter sub can be manufactured by customer specification.

Pin-Box Adapter

Pin-Pin Adapter

Box-Box Adapter

Drill Pipes

DRILLING PROFESSIONAL, UNIQUE FEATURES.

Kooben offers a complete range of world class drill string components for the mining, quarrying, water well and ground engineering industries

Case hardening ensures that drill pipe threads last at least 40 % longer than industry standard threads.

Straighter drill pipes mean smoother drilling with less stress on the drill rig. Higher strength pipe allows for thinner wall thickness and less weight. Smooth inner bore prevents scale from entering tooling.

Top hammer drilling tools

Kooben offers a complete range of industry-leading drilling products for exploration, top hammer, DTH, rotary, and blasting operations.

Kooben can give professional advice and customized products according to customers' needs.

Pain Points

Our customers suffer and want to be solved.

01

Whether the drilling tools get the expected lifetime with the reliable and stable quality?

02

Is it better cost performance comparing with previous supplier?

03

How about the pre and after-sale service and technical support ?

Our solution

3 ways our company proposes to solve them.

01

- Our production process is controlled and achieved strictly by international quality management system.
- Case hardening technique ensures that pipe threads extended at least 50 % longer lifetime

02

- Strict control from the casting, machining, assembly to inspection
- Competitive price with better service and support

03

- Our high performance team can give customers better experiences from the end to end through the professional service. parts.

Customer reviews

DAVIN · KATO

Very professional and quickly responses by the sales manager Jose, would recommend Kooben to anyone

DENZEL

Kooben supplier service is very good. On-time shipment, fast delivery, drilling tools quality satisfied

TOMAS

Kooben company provide excellent drilling parts ,their R&D team can produce the drill parts according to my request, even we have met difficulty when discussing process, Mr.Chen is very patient to solve my problems

01 

Customer Company :OOO «ALTAIBURMASH»

CEO :Stanislav

Country:Russia

Customer story

- Case hardening technique ensures that pipe threads extended at least 50 % longer lifetime
 - Friction welded technology eliminates the need for shrink fitting ensuring less weight and lasting life span.
- ➔ **5 years contract signed to cover the full range product from DTH to Top hammer drilling tools.**

02

Company:AsistecMinera

CEO:Tomas Fabian :

Country:Argentina

Customer story

- Strict control from the casting, machining , assembly to inspection
- Competitive price with better service and support
- State of the art material requirement

8 years cooperation from the drillings tools initially to the drilling rigs and parts
